PROFILE SUMMARY

Software Test Engineer with 1.3+ years of experience in web and mobile application testing, covering ERP, CRM, and enterprise applications. Experienced in handling QA activities independently, including requirement understanding, test planning, test-case design, execution, defect tracking and regression testing. Hands-on exposure to **Playwright** with **JavaScript**, **REST API testing** with **Postman**, and data validation by writing effective **SQL** queries. Now, I'm looking for an opportunity to work with a professional team, enhance my QA skills, and grow my expertise in automation testing.

Technical Skills & Expertise

- **Manual Testing**, Functional Testing, Regression Testing, Smoke Testing, Retesting, Test Case Design, Test Plan Creation, **Defect Reporting**, **Automation Testing**, **API Testing**, **Database Testing**, SDLC, STLC, **Desktop Testing**
- Tools & Language: Jira, GitHub, **Postman , My SQL**, JavaScript**, REST assured API**
- Framework: Playwright
- Domain Exposure: Fintech, BFSI, Government applications, **ERP application** and CRM website

PROFESSIONAL EXPERIENCE

QA ENGINEER| Klaimify Private Limited | Raipur, India (07/2025 - 09/2026)

- Executed end-to-end functional testing across multiple applications, identifying defects and validating business-critical workflows against requirements.
- Performed functional, smoke, and regression testing to verify application features, user permissions, and business workflows.
- Reported and tracked bugs in Jira with clear steps to reproduce the issues and worked with developers to get them fixed.
- Used SQL/MySQL to verify database records and Postman to test REST APIs and validate responses.
- Used a Playwright automation framework to automate regression testing and reduce manual testing effort.
- Worked with Business Analysts and developers to understand requirements, discuss issues, and support User Acceptance Testing (UAT).
- Participated in Scrum/defect review meetings to discuss reported bugs and help identify their possible causes.

KEY PROJECTS & TESTING CONTRIBUTIONS

E-Pension Management System | CG Govt. | (www.pension.cgmandiboard.in)
Project Overview: A pension management application used to manage pensioner records, pension calculations, approvals, and monthly pension payments.

CG Tourism Platform | Travel & Tourism | (www.tourism.cgstate.gov.in)
